Education

·Panimalar Engineering College, Chennai *2027*
B.Tech., Information Technology CGPA/Percentage: 8.5

·Smt NDJA VV Ser Sec School *2023*
Central Board of Secondary Education CGPA/Percentage: 78.5

Projects

Toxic Comment Detection ***August 2025***

Tools and Technologies used : Node JS, React JS, MongoDB, ML-NLP.
This project is a web-based chat system that uses Natural Language Processing and machine learning to automatically detect, classify, and control toxic comments in real time, helping maintain a safe and respectful online environment.

Language Agnostic Bot ***November 2025***

A language-agnostic chat bot is an AI system that can understand and respond to users in multiple languages.
Tools and Technologies used : React JS, Python FastAPI, Pinecone, HuggingFace, LLaMA-3, n8n, MongoDB.
Our Language Agnostic Chatbot provides instant, accurate, and multilingual responses to common student queries like admissions, fees, scholarships, exam schedules, timetable details, department info, and general college services

UniAssist AI – Next-Gen College Support System ***February 2026 - current***

Currently developing an AI-powered chatbot for college websites using LLaMA3 and Phi-3 models, built with FastAPI and deployed using Python Gunicorn for high performance.
Unlike orchestration-based frameworks, this system directly handles intelligent query processing and database operations for students and staff support.

Internships

·Elewayte ***June-July 2023***
Artificial Intelligence Programmer **Bengaluru**
Performing data analysis for various AI applications.
Experience with data analysis and a foundational knowledge of statistics, probability, and linear algebra is often beneficial.

·Alfido Tech ***June-July 2025***
Java Developer **Hyderabad**
Write, test, and debug code for Java-based applications and features.
Assist in identifying and resolving bugs and performance issues.

-TANSAM (Tamilnadu smart and advanced manufacturing centre) ***February 2026 - current***
Research Assistant **Chennai**
Developing an AI-powered chatbot that can seamlessly integrate with any college website to assist staff.
The chatbot also supports direct database operations, enabling query handling and real-time data management.

Technical Skills

Languages: Python, Java, HTML, CSS, JavaScript
Developer Tools: GitHub, Eclipse, VS Code
Cloud/Databases: PostGre SQL, Mongo DB
API Development: Fast API, Rest API
AI Tools: ChatGPT, ClaudeAI, Gemini

Achievements

·2024 Ideathon Winner ***February 12, 2024***
·2025 SIH Grand Finale Runner Up ***December 9,2025***
·2026 Code-a-thon Runner Up (VIT Mumbai) ***January 31,2026***
